Re: Administrative Order V-W-84-007 Groundwater

Dear Mr. McWilliams:

The U.S. Environmental Protection Agency has reviewed Ethyl's revised groundwater sampling plan attached to your letter of January 24, 1986. The revision is acceptable as described by IT Corporation's December 20, 1985 plan. Since the analytical work described in the Agency's November 22, 1985 letter was not challenged, it is assumed Ethyl agrees to this. Please inform the undersigned when field operations are scheduled to begin.

If you have any questions, please call me at 312-886-4746.

Sincerely,

A handwritten signature in black ink, which appears to read "Nicholas J. Longo", is written over the typed name.

Nicholas J. Longo
Remedial Project Manager
Hazardous Waste Enforcement Branch
